MUNICIPAL RANKINGS 87

LOCAL POPULATION (1988) ESTIMATES FOR PENNSYLVANIA, COUNTIES, & MINOR CIVIL DIVISIONS (MCDs)

The figures shown in these tables may not coincide with the areas covered in the latest decennial census. Areas included in this series tables are (1) counties; (2) active minor civil divisions (MCD's), i.e., towns, townships, boroughs and cities.

The estimates are presented in each table in county order, with all MCD's listed in alphabetical order. MCD's are always identified in the listing by the term "township," "town," or other MCD category. When MCD's fall in more than one county, each county piece is marked "(part)" and totals for these MCD's are presented at the end of the table under the heading "Multi-County MCD's."

POPULATION ESTIMATES METHODOLOGY

Subcounty Areas

To estimate the population of each subcounty area, a component procedure was used in which each of the components of population change (births, deaths, net migration, and special populations) was estimated separately. These components of change cover the time period from July 1, 1986, to July 1, 1988. They were added to the July 1, 1986, base population to determine a July 1, 1988, estimate. This procedure is known as the administrative Records method.

July 1, 1986 base population. For most areas, the base population is identical to the published July 1, 1986, estimated population. Differences are generally the result of 1980 census corrections, annexations, or successful challenges by individual local governments.

1. Census corrections. For some areas, errors in the 1980 census have been identified and subsequent corrections made. All available corrections to the 1980 census are reflected in the base population. The following Pennsylvania municipalities reflect their revised numbers:

Allegheny County: Baldwin Borough, Brentwood Borough, Hampton Township, McCandless Township, Pleasant Hill Borough and West Mifflin Township.
Bucks County: Bensalem Township.
Butler County: Cranberry Township and Seven Fields.
Cumberland County: East Pennsboro Township, Hampden Township, and Wormleysburg Borough.
Luzerne County: Foster Township and White Haven Borough.
Montgomery County: Abington Township, Conshohocken Borough, Lower Merion Township, Lower Pottsgrove Township, and Whitemarsh Township.
Contact the Census Bureau at (301)763-7955 for more information on the revised 1980 population counts.

2. Annexations. The base population also reflects certain annexation activity that occurred between April 1, 1980, and December 31, 1987. Such is the case with Cold Spring Township in Lebanon County, and estimates will not appear. Annexations are included only if the Census Bureau has determined an official April 1, 1980, population for the annexed area from 1980 census records.

Natural change. Reported resident birth and death statistics were used for counties. These data were collected from State health departments through the State agencies participating with the Census Bureau under the auspices of the Federal-State Cooperative Program for Population Estimates (FSCPE).

For subcounty areas, births and deaths were estimated using local fertility and mortality rates and demographic data from the census. The results were controlled to match the reported figures for counties.

Migration. Federal income tax data were used to measure migration by comparing tax data for 1986 and 1988. A net migration rate was derived for each locality and was applied to a base population to yield an estimate of net migration for all persons in the area. Immigrants from abroad are added based upon data from the U.S. Immigration and Naturalization Service and an allowance by the Bureau of the Census for emigration and for undocumented aliens to the extent that they would be counted in a census.

Adjustment for special populations. In addition to the above components of population change, estimates of special populations were also taken into account. Special populations include persons who are residents of an institution, college dormitory, or military barracks. Data for these groups are collected from the specific institutions involved.

Counties

Estimates of the population of counties, independent cities, cities whose boundaries are coextensive with a county, and cities made up of more than one county are, for the most part, identical to the July 1, 1988, county estimates published in Current Population Reports, Series P-26, No. 88-A.

A description of the methodology used in developing these estimates can be found in that report.

States

The estimates for counties were adjusted to agree with population estimates for each State. The State estimates were prepared using two procedures: the Administrative Records method that is described above for counties and a composite method that develops estimates for several segments of the population and sums them to obtain a total. The methods are described in more detail in Current Population Reports, Series P-25, No. 1044.

ACCURACY

In order to assess the accuracy of the population estimates for subcounty areas, a set of April 1, 1980, estimates was produced for evaluation by comparison to the 1980 decennial census counts. The average absolute percent error for all areas was 15 percent. The average error varied sharply by size of area, from a low of 4 percent for areas with a population of 100,000 or greater to a high of 35 percent for areas with population less than 100. The relatively high overall average error was due in part to the preponderance of small areas. Approximately 76 percent of the areas estimated had less than 2,500 people. For areas with population greater than 2,500, the average absolute percent error was 8 percent.

Source: Local Population Estimates (1988 Population & 1987 Per Capita Income) Machine Readable Data File. Available from Customer Services (301/763-4100) for $175. These estimates will also be published in a series of five reports (P-26, No. 88-(Region)-SC) later this year.
Contact Customer Services for availability and ordering information.
